

Case Study

Translation of Scientific Presentation Slideck into Different Languages for Healthcare Company.

Client's Business Influence

Perfect Scientific Slideck ready with accurate, well-designed and respective language translated scientific content.

Project Scope:

One of the healthcare company stakeholder approached us with the requirement of translation of Thai, Arabic, Hindi, and Punjabi and Malayalam languages.

Methodology/ Approach:

- The PDF format presentation slides were converted into PowerPoint slides and had thorough check on alignment, text, images and references to make not missing of anything in conversion process.
- Presentation assigned to respective language experts with client's instruction document and check list.
- Scientific presentation from respective language was delivered to client post quality confirmation from the review team.
- Post-delivery feedback and updates addressed by the review team.
- Final Signoff.
