

Case Study

Digitization of Over 2, 00,000 Physical Copies and Exact Reproduction into Soft Copies

Client's Business Influence

Easy, secure and exact submission of forms to the next level of authorities.

Project Scope:

One of the major Bio-fertilizers Company approached us with the requirement of huge volume of farmer's feedback forms over 2, 00,000 physical copies for digitization to check farmer's response towards their products usage.

Methodology/ Approach:

- Client sent 2, 00,000 feedback forms through courier after successful completion of sample work.
- Started batch wise Scanning and running of OCR (Optical Character Recognition) to make editable data.
- Extracted data elements from each form based on the client guidelines.
- Finally data transferred into excel and performed strict review on the extracted data elements to make sure the output reached client quality parameters.
- Files uploaded into client specified FTP server, after 3 levels of QC.
